# First Week of Spring

Our March Furniture and Carpet business is a wonder. The Furniture and Carpets we sold last week would have emptied any ordinary Furniture Store. Here the effect cannot be noticed. It is not the quantity of our stock, however, but the quality that we pride ourselves of. If you are going to build or move this spring, you will require new furnishings to fit out the new home. Even if you are not going to move you probably intend to add something to the comforts of the present home, to brighten and give that cheery spring appearance. Whether

Carpets, Curtains, Furniture, Go-Carts

Or anything in House Furnishings, we are prepared to show you immense stocks at lowest prices, quality considered. It is to your interest and advantage to call and see our new spring lines.

### Early Carpet Buyers Have the Advantage

Sometimes it is impossible to tell just what is going to be needed in the Carpet line until the last moment. Usually, however, it isn't, and there is such a distinct advantage in selecting early that the wonder is more people don't do it.

The Spring Carpets are all here. Thousands and thousands of yards of them, many exclusive designs and patterns in every grade, from the richest Wilton Velvets, down to the cheapest Ingrains. The best of the patterns are picked out first, of course—that is one advantage of early buying. Orders that come first get the first attention-that is another advantage. We have a large and excellent stock and are selfing lively. Come in soon and see the new things.

Room Rugs, Art Squares, Portieres, Rugs of all sizes, styles and prices. Don't pass the Big Store in your shopping tour. Our high quality and low prices will interest you.
